## Wisconsin Youth Conservation Corps Application

### Job Description

Youth who participate in the Wisconsin Youth Conservation Corps will have an opportunity to complete conservation projects, work as a team, engage in educational opportunities, and develop as an individual. Youth ages 16-25 will work as part of a crew to complete conservation projects throughout Wisconsin, while experiencing and learning about the local natural area. Each 5-8 person crew will be led by an experienced adult Crew Leader who will supervise the youth and teach them the tools and techniques needed to safely complete their conservation projects.

Participants will be paid a minimum wage for participation on a Wisconsin Youth Conservation Corps crew and will work for a term of 4-8 weeks. An orientation session will give members a chance to meet, receive safety equipment, fill out payroll paperwork, and participate in teambuilding games. From there, the crews will head to their respective project sites to begin their work. For more information about the Corps Member position or about the program, see our website [www.wiscorps.org](http://www.wiscorps.org)

### Please complete the following information.
